## 提醒子女保護自己，拒絕誘惑

### Remind Children to Protect Themselves, Resist Temptation

- 子女在青少年時期會經歷成長的重大轉變，而毒犯往往以未成年人為目標，引誘他們嘗試新毒品。家長站在青少年的角度，聆聽他們的心聲會有助他們遠離毒品。家長可提醒子女提高警覺，要向毒品說「不」，勿因一時好奇或受朋輩壓力誤墮「太空油毒品」陷阱。上網交友、購物、打機都要小心。

- 以下是一些拒毒技巧：

➤ 第一招：直接說不

堅定與直接地拒絕引誘，例如：「吸食『太空油毒品』會上癮，咪攞我！」

➤ 第二招：善用藉口

以藉口婉轉拒絕引誘，例如：「我唔得閒，走先啦！」或「唔好啦，我最怕就係食煙。」

➤ 第三招：反客為主

主動提出反建議，藉以轉換話題，例如：「呢啲「太空油毒品」食壞腦呀，不如去睇戲仲好啦！」

- Children in adolescence experience drastic changes when growing up, and drug dealers often target minors and entice them to try new drugs. Parents who listen to their children and understand them from their angles could help them to stay away from drugs. Parents can also remind your children to stay vigilant and say “No” to drugs, and not fall prey to “space oil drugs” out of curiosity or peer pressure. Constant vigilance is required when meeting online friends, shopping online, and playing e-games.
- Here are some techniques to decline drug offer:

➤ Refusal Skill (1): To say NO directly

Refusing drugs firmly and directly, e.g., “Taking ‘space oil drug’ will lead to addiction. No thanks!”

➤ Refusal Skill (2): To say NO using an excuse

Getting away from a situation where you are being lured to take drug, e.g., “Sorry, I have to go now!” and “Smoking is not for me.”

➤ Refusal Skill (3): To say NO with a counter proposal

Changing the subject by suggesting some other activities, e.g., “Taking ‘space oil drug’ will ruin your life. Why don’t we go to the cinema?”
